PROFESSIONAL SUMMARY

Computer Science & Engineering student specializing in AI & Data Analytics, with hands-on experience building a full-stack, face-recognition-based application using Python, Flask, and SQL. Strong foundation in machine learning fundamentals, database systems, and web development, backed by six technical certifications from Microsoft and MongoDB. Seeking internship opportunities in AI/ML, Data Science, or Software Development.

EDUCATION

B.Tech (Hons.) in Computer Science & Engineering — Specialization in AI & Data Analytics

GLA University, Mathura | Expected Graduation: 2029 | CGPA (1st Year): 8.49

RELEVANT COURSEWORK

Artificial Intelligence • Machine Learning Fundamentals • Database Management Systems (DBMS) • Object-Oriented Programming (OOP) • Python Programming • Web Development

TECHNICAL SKILLS

- **Languages:** Python, SQL, JavaScript, HTML5, CSS3
- **Frameworks:** Flask, Jinja
- **Databases:** PostgreSQL, Supabase
- **AI / ML:** Artificial Intelligence Fundamentals, Machine Learning Fundamentals
- **Tools:** Git, GitHub, Visual Studio Code, Microsoft Azure Fundamentals (AZ-900)

PROJECTS

Smart Attendance System | Python, Flask, Jinja, Face Recognition, HTML, CSS

- Designed and built a full-stack web application that automates attendance tracking using real-time face recognition, replacing manual roll-call with automatic digital logging.
- Implemented the recognition pipeline in Python and connected it to a Flask + Jinja web interface, so identified users are marked present without manual input.
- Structured the backend to reliably distinguish between registered users, handling recognition and attendance-recording as a single automated flow.
- Collaborated with teammates to merge independently built modules (recognition, backend, UI) into one functioning application.
- Applied computer vision, backend development, and web integration skills end-to-end, from model integration to a working user-facing interface.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900) — Microsoft
- MongoDB Basics for Students, AI Data Strategy with MongoDB, Vector Search Fundamentals, RAG with MongoDB, AI Agents with MongoDB — MongoDB, Inc.

ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

- **Cognizance 2026, IIT Roorkee:** Participated in BitByBit, Claw & Shield, and Codify Rumble at the annual technical festival of IIT Roorkee.
- **Innovision '25, NSUT:** Participated in "One Shot, One Line" at Netaji Subhas University of Technology's flagship fest.
- **Mission Upskill India x TechFest Delhi (HCL GUVI):** Participated in the Generative AI Industry Connect Session.
